- Next.js
- Express.js
- REST API Consumption
- PostgreSQL
- MySQL
- MongoDB
- Prisma ORM
- Performance Optimization
- Nest.js
- AI Model Integration
- Git
- GitHub
- Postman
- Vercel
- Tailwind CSS
- Redux
- Context API
- Zustand
- Problem-Solving
- Critical Thinking
- Communication

PROJECTS

- E-commerce Interface & API Integration, Raangalay, [Live](#), built a high-performance frontend using Next.js, optimizing SEO and page load speeds., Developed reusable UI components with Shadcn UI and Tailwind CSS for design consistency., Managed complex app state using Zustand for efficient cart and user data handling., Ensured mobile-first responsiveness and web accessibility (a11y) across all devices.
- Doctor Finder Platform (MERN Stack), [Live](#), [Repo](#), developed a comprehensive doctor discovery system featuring advanced search, multi-criteria filtering, and a real-time appointment booking engine., Implemented secure user authentication and Role-Based Access Control (RBAC) to manage different permissions for patients, doctors, and admins., Designed and built detailed doctor profiles and a centralized Admin Panel to streamline the management of users, medical records, and scheduling.
- Quran Web Application (Next.js, Node.js): [Live](#), [Repo](#), developed a modern, responsive Quran web application using Next.js and Node.js that enables users to browse Surahs, read Ayahs in Arabic with English translations, search verses efficiently, and personalize their reading experience through customizable settings. The application integrates RESTful APIs to deliver dynamic Quran content while emphasizing performance optimization,

ACHIEVEMENTS

- Mastering on Next JS & Prisma Course, Ostad, [Link](#)
- Full Stack Web Development with JavaScript (MERN) Course, Ostad, [Link](#)

EDUCATION

Bachelor of Science (B.Sc.)

Psychology, National University, Gazipur Bangladesh, 2022

CGPA: 3.01/4.00

Higher Secondary Certificate (HSC)

Science, Uttara Public School & College, Uttara Dhaka Bangladesh, 2016

GPA: 4.50/5.00
